## Journal of Science Learning (JSL, J.Sci.Learn)

The Journal of Science Learning (JSL) is an open access and peer-reviewed journal published by Universitas Pendidikan Indonesia. The aim of Journal of Science Learning is to promote a principled approach to research on science learning by encouraging enquiry into relationship between theoretical and practical studies. The article offers ways to improve classroom science teaching and learning, and professional development. The Journal welcomes contributions in such areas of science learning, science learning in everyday life, science teacher education, science studies and science education. JSL is a triannual journal issued on March, July, and November. The journal was first published by Universitas Pendidikan Indonesia in 2017.

## Peer Review Policy

Newly submitted manuscripts will first be screened by the main Editors. Manuscripts may be rejected at this stage if they are of insufficient quality, outside the scope of the journal or they are considered not original. Manuscripts that do meet the minimal requirements for publication are assigned to one of the main Editors, who sends the manuscript out for review. Reviewers are selected by the main Editors on the basis of their expertise, their availability, and such as to avoid possible conflicts of interest. A reviewer is asked to evaluate whether the manuscript is scientifically sound, original, relevant, clear, whether it correctly references previous work, and whether it falls within the scope of the journal.

All research articles in this journal have undergone rigorous peer review, based on initial editor screening and anonymized refereeing by at least two anonymous referees. The acceptance or rejection of articles will be decided by the editorial boards based on the review results supplied by the reviewers. There are no communications between authors and editors concerning the rejection decision. Authors whose papers are rejected will be informed with the reasons of the rejection.

All papers are fully peer-reviewed. We only publish articles that have been reviewed and approved by highly qualified researchers with expertise in a field appropriate for the article. We used single blind peer-reviewing process. To ensure the integrity of the blind peer-review for submission to this journal, every effort should be made to prevent the identities of the authors and reviewers from being known to each other.

## Editorial Team

### Editors

Ari Widodo, Universitas Pendidikan Indonesia, Indonesia  
Eka Cahya Prima, Universitas Pendidikan Indonesia, Indonesia

### Editorial Board

Ferli Septi Irwansyah, UIN Sunan Gunung Djati Bandung, Indonesia  
Yayan Sanjaya, Universitas Pendidikan Indonesia, Indonesia  
Herni Yuniarti Suhendi, UIN Sunan Gunung Djati Bandung, Indonesia  
Peter John Aubusson, University of Technology Sydney, Australia  
Reinders Duit, University of Kiel, Germany  
Marissa Rollnick, University of Witwatersrand, South Africa  
Anna Permanasari, Universitas Pendidikan Indonesia, Indonesia  
Diana Rochintaniawati, FPMIPA Universitas Pendidikan Indonesia, Indonesia  
Zuhdan Kun Prasetyo, Universitas Negeri Yogyakarta, Indonesia  
Thoha Firdaus, STKIP Nurul Huda, Indonesia  
Irwandani Irwandani, Universitas Islam Negeri Raden Intan Lampung, Indonesia  
Eliyawati, Universitas Pendidikan Indonesia, Indonesia  
Ikmanda Nugraha, FPMIPA Universitas Pendidikan Indonesia, Indonesia  
Nanang Winarno, FPMIPA Universitas Pendidikan Indonesia, Indonesia  
Rika Rafikah Agustin, FPMIPA Universitas Pendidikan Indonesia, Indonesia  
Lilit Rusyati, FPMIPA Universitas Pendidikan Indonesia, Indonesia

# Journal of Science Learning

Volume 2, Issue 1, November 2018, pp 1-32

## Table of Contents

<b>Preface</b>	i
<b>Table of Content</b>	ii
The Effect of Predict-Observe-Explain (POE) Strategy on Students' Conceptual Mastery and Critical Thinking in Learning Vibration and Wave	
<b>Dandy Furqani, Selly Feranie, Nanang Winarno</b>	1-8
An Action Research on Enhancing Grade 10 Student Creative Thinking Skills using Argument-driven Inquiry Model in the Topic of Chemical Environment	
<b>Pitukpong Kumdang, Sirinapa Kijkuakul, Wipharat Chuachud Chaiyasith</b>	9-13
Using Science, Technology, Society, and Environment (STSE) Approach to Improve the Scientific Literacy of Grade 11 Students in Plant Growth and Development	
<b>Kultida Chanapimuk, Sureporn Sawangmek, Pranee Nangngam</b>	14-20
Interactive E-Module Development through Chemistry Magazine on Kvisoft Flipbook Maker Application for Chemistry Learning in Second Semester at Second Grade Senior High School	
<b>Roza Linda, H Herdini, Ika Sulistya S, Teja Pratama Putra</b>	21-25
The Effect of STEAM-based Learning on Students' Concept Mastery and Creativity in Learning Light and Optics	
<b>Gita Ayu Wandari, Agus Fany Chandra Wijaya, Rika Rafikah Agustin</b>	26-32
